Company Introduction

Wenzhou Feihua Printing Machinery Co., Ltd. has more than 20 years of experience in post-press equipment manufacturing, specializing in the production of laminating machines, comprehensive coating machines and pre-coating films. A professional company integrating scientific research, design, manufacturing, and service, with the business tenet of "professionalism, focus, innovation, and service", scientific management, and strive to meet customer requirements to the greatest extent.

Model: JXC-75 Automatic Hot Foil Stamping Machine

一、Applications

- 1.This machine is a latest fully foil stamping equipment, It's widely used in foil stamping
2. many kinds of paper and other flat material. Such as congratulatory card, invitation card,
3. Red pocket and packing paper boxes and etc, Such a technology can made the products more.
- 4.personalization and more exquisite.

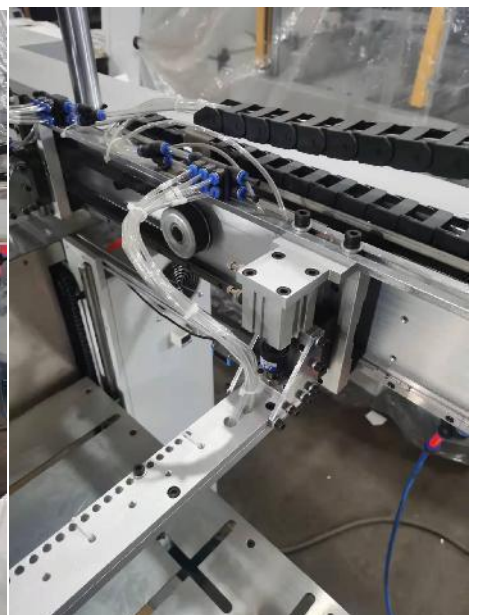

二、Technical parameters

Model		JX-55	JX-75
Max. paper size(Width)-mm	最大纸张规格	540*450mm	750*600mm
Min. paper size(Width)-mm	最小纸张规格	100*100mm	150*150mm
Max hot stamping size	最大烫金面积	300*250mm	500*400mm
Speed-m/min	速度	15-25pcs/min	15-25pcs/min
Paper thickness-g/m2	纸张厚度	120-2000g (2.5mm)	120-2000g (2.5mm)
Power	电压	3.5kw 220v	8kw 380
Weight	重量	600kgs	1000kgs
Dimension (layout)	整机安装尺寸	1500*1200*1450mm	2100*1300*2050

三、 Features:

1. PLC control, easy to operate with one person only.
2. Foil stamping pressure temperature and time can be adjusted.
3. the feeding guide can be adjusted
4. Foil stamping's platen can be worked up and down automatically.
5. Servo motor feeding, deliver paper sensor position and adjusted.。
7. Feeding table can be worked up and down automatically
8. Automatic foil stamping program
9. It has safely protection function; It can automatically stop the operation when approaching the dangerous area of the equipment. to protect the human safely.

三、 Machine Configuration:

四： Components List

Accessory Name	Origin/Brand	Remarks
Frequency Converter/PLC	Shanghai/Schneider	
Contactora/Relay	Shanghai/Schneider	
Button	Shanghai/Schneider	
Main fiber/photoelectric	Japan/OMRON	
Stroke/limit switch	Shanghai/Schneider	
The electromagnetic valve	Shanghai/Airtac	
Pneumatic control components	Shanghai/Airtac	
Teflon conveyor belt/belt	Xiamen/Sibek	
Motor / reducer	Taiwan/Chengbang	Metering roller motor: Shanghai Zhibao
Host wall panel	HT200	
scraper	Switzerland	
Main bearing	Japan、NSK	

五、 Service and Warranty

Machine warranty: guaranteed for 1 year on spare parts.

Installation & Train:If buyer requires installation, he should pay for seller's technician's round-trip plane tickets, their local accommodation, local transportation and Chinese interpreter and assist to apply for the engineer's visa..
