Company Introduction:

WENZHOU FEIHUA PRINTING MACHINERY CO.,LTD produce kinds of laminating machine and UV coating machine and BOPP Thermal film material PET And 3D , Soft touch film . With the development and innovation of post-press equipment, our company has carried on deep research and development to post-press equipment combining the features of printing & packing industry home and abroad. The products occupy sizable market at home and also have been expanded to all over the world.

FeiHua manufactures has a strong design and sales team,less maintenance and trouble free performance. Our main idea for machine are simple to use and they can be operated by non technical staff to give a consistently higher calibre result. Also give good service for spare parts.

The company is committed to establishing a national marketing service network, based on a scientific and rigorous management system, development and design talents and a high-quality workforce, with the spirit of continuous pursuit of excellence and innovation, to provide customers with better and better services, so that customers can obtain Greater benefits, stronger competitiveness, first-class brand within the business. We sincerely welcome new and old customers from all walks of life to visit and cooperate sincerely. We hope that domestic and foreign customers will cooperate with us for a long time to create brilliant.

Name: Manual or Online Glazing Machine

Model:SGUV-660/760

1. Machine function 功能

The SGUV series is a practical fully automatic coating machine developed by our company, which is suitable for posters, books, brochures, color boxes, color box packaging, handbags, etc.

2. Machine Structure Scheme

3. Specification 技术参数:

型号	Model	SGUV-660	SGUV-760
最大纸张尺寸	Max. Sheet Size	620mm	760mm
最小纸张尺寸	Min. Sheet Size	150x210mm	150x210mm
纸张克重	Sheet Weight	80~500g/m ²	80~500g/m ²
速度	Speed	0~40m/min	0~40m/min
功率	Power	12.0Kw	12.0Kw
UV 灯管	UV Lamp	1pcsx6.5Kw	1pcsx6.5Kw
红外灯管	IR Lamp	3pcsx1.2Kw	3pcsx1.2Kw
重量	Weight	850kg	850kg
体积	Dimension	3250x1180x1230mm	3250x1250x1230mm

The machine can be customized

4. Configuration 配置

- This UV Coating Machine is equipped with UV curing and IR drying device.
- Digital frequency converter speed control. And independent conveyor driven.
- Larger diameter coating rollers makes the coating effect smoother & brighter.
- Full coverage splash guards to protect from splashing.
- Used vacuum airbed for maximum hold down the paper sheets on conveying.
- UV magnetic leakage transformer with parallel capacitor design can better endure the voltage fluctuating impact.
- Two level UV lamp power setting.
- Easy access UV lamp chamber and replacement.
- High velocity blower fan for cooling and exhaust.
- Safety locker on all machine doors and covers.
- Full coverage protection against UV radiation around the UV lamp chamber.
- Lower temperature control on the UV lamp chamber surface.
- Emergency stop switches at arms length throughout the machine .
- Interlocks design prevents against misoperation.

Accessory Name	Origin/Brand	Remarks
Frequency Converter/PLC	Shanghai/Schneider	
Contactora/Relay	Shanghai/Schneider	
Button	Shanghai/Schneider	
Main fiber/photoelectric	Japan/OMRON	
Stroke/limit switch	Shanghai/Schneider	
The electromagnetic valve	Shanghai/Airtac	
Pneumatic control components	Shanghai/Airtac	
Teflon conveyor belt/belt	Xiamen/Sibek	
Motor / reducer	Taiwan/Chengbang	Metering roller motor: Shanghai Zhibao
Host wall panel	HT200	
scraper	Switzerland	
Main bearing	Japan、NSK	

选配项: 纸张计数器 Optional: Paper Counter

NO	面板文字 Panel Words	内容说明 Content Instruction
1	PV (上排 Upper LED)	实际测量值/模式显示器 Real measure data / Mode indicator
2	SV (下排 Lower LED)	设定值/模式内容显示器 Setting data / Mode content indicator
3	OUT1	输出 1 指示灯 Output 1 indicator
4	OUT2	输出 2 指示灯 Output 2 indicator
5	SV1	设定值 1 设定指示灯 Setting data 1 indicator
6	SV2	设定值 2 设定指示灯 Setting data 2 indicator
7	RUN	仪表工作指示灯 Meter normally working indicator
8	SET	确认键 Confirmation key
9	RST	复位键 Reset key
10	1~6	第一至第六位数字设定键, 参数修改键 No.1 to 6 bit number setting key, parameter modifying key

5. Service and Warranty:

☞ Training Content:

All machines have been finished all adjustment and test in NEW STAR workshop before delivery, the mechanical structure, components adjustment, electrical operation of the switch, and the matters needing attention, day-to-day maintenance of equipment, etc., In order to ensure the normal operation of equipment, later.

☞ Warranty:

12 months for electric parts, the service is for whole life, once you asked the spare parts, we can send immediately, customer afford the courier fee. (Since the date of purchase from delivery and on the board, within 12 months)

6. About FeiHua company

☞ Company honor 公司荣誉:

Certification (CE & Patent)
